**Racanelli Construction completes The Castle: A \$29 million apartment/mixed-use property**

August 01, 2017 - Long Island

The Castle - Port Chester, NY

Port Chester, NY Racanelli Construction Company, Inc. has completed construction of The Castle – a six-floor, 107,000 s/f apartment and mixed-used complex. Racanelli Construction served as the general contractor/construction manager on behalf of its customer, Castle Port Chester LLC. The project developer was Madigan Development.

Serving on the Racanelli Construction team for The Castle project were: project executive Michael Racanelli, project manager Jerry Tudisco and project superintendents Anthony Mish and Jose Campos.

The construction component of The Castle's development was valued at \$29 million.

The Castle includes 120 residential units including studios, one-bedroom and two-bedroom apartments, as well as a parking garage, amenities lobby, courtyard, rooftop amenities and retail space. The apartments feature modern, gourmet kitchens with islands, quartz countertops, European-style cabinetry and wood-style flooring throughout the kitchen and living areas.

Some of the apartments also have walk-out patios. Among the complex's amenities are a lobby with grand entrance, rooftop terrace with grills and lounge, a clubroom with flat-screen television and billiards, a private movie theater, a 24-hour fitness center, and executive conference rooms and business center with Internet access and workstations. There is even a bike repair shop and personal storage provided. Security is provided through controlled access to the building and a private, multi-level parking garage. The Castle has on-site professional property management.

Racanelli Construction used concrete and wood framing along with brick and Hardie plank siding in The Castle's construction. The U-shaped building was designed to best suit the project's site location. One of the challenges Racanelli had to overcome in the project's construction was the property's landscape which sloped in many directions. The Castle is a LEED-certified project attesting to its focus on energy-efficiency.

With roots dating back five decades ago, Racanelli Construction Company is a family business with a long legacy of commercial/industrial real estate building and development. The company serves its diverse clientele as a construction manager, general contractor or complete design/build resource. The company's services are applied in the construction of corporate/industrial, healthcare, retail, hospitality/restaurant, educational, residential, religious, storage and pre-engineered buildings. Its highly qualified team of professionals and application of sound business processes with state-of-the-art technologies combine to facilitate

high quality, on-time and on-budget projects. Racanelli Construction Company's long history and impeccable reputation as a high quality builder/developer has earned the company a broad bonding capacity as well as AAA Insurance coverage. Racanelli maintains excellent working relationships with local municipalities, business and civic associations, and elected officials. These relationships accrue considerable benefits to Racanelli's clients when seeking financing/bonding, zoning approvals and support from the local community.
