What market trend(s) will impact your industry in 2019?

We expect to see a continued increase in the installation and ongoing maintenance of emergency radio communication systems, specifically Auxiliary Radio Communication (ARC) systems in New York City and Bi-Directional Amplification (BDA) systems outside of the five boroughs.

These systems serve a crucial role in the life safety of emergency responders and are now mandated by building and fire codes across the country. American Security offers turnkey life safety solutions, including ARC/BDA and electronic fire alarm and security systems.
