Manhattan, NY

Manhattan, NY MBI Group, a NYC-based construction firm specializing in interior and healthcare fit-outs, was retained as part of a competitive bid process to construct and renovate patient care spaces at The Mount Sinai Hospital's Guggenheim Pavilion, located at 1190 Fifth Ave. on the Upper East Side.

The scope of the four-month project consisted of the renovation of patient spaces in the hematology, oncology and bone marrow transplant unit. The renovations of patient rooms, nursing stations, restrooms, and corridors included interior demolition; millwork; drywall and ceiling work; tiling; terrazzo; flooring; painting; toilet installation; wall protection; plumbing, HVAC and electrical work.

"We are honored to be an approved contractor for Mount Sinai Health System, a pioneer in medical care with some of the world's most modern and patient-centric facilities," said Edward Campanella-Rodriguez, president and founder of MBI Group. "For over 30 years, MBI Group has been providing the highest quality of construction services to our clients, including hospitals and medical spaces, to achieve renovation goals on time and within budget."

Founded in 1852, Mount Sinai Hospital is one of the nation's oldest and largest teaching hospitals. The hospital stretches from East 98th to 102nd Sts. between Madison and Fifth Aves. on the Upper East Side, with entrances at 1190 Fifth Ave. and 1478 Madison Ave.

The Mount Sinai Health System is an integrated health care system providing exceptional medical care to local and global communities. Mount Sinai is internationally acclaimed for its excellence in research, patient care, and education across a range of specialties.
