

U.S. Energy installs new solar panels at company's headquarters

September 27, 2010 - Green Buildings

Jerry Pindus, CEO of U.S. Energy Group, recently unveiled the new solar panels on the roof of the company's headquarters located at 78-40 164 St. The solar system will provide 17-20% of the building's common-use space electricity. Additionally, the system is projected to prevent the production of 27,139 pounds of carbon dioxide each year.
