

Judovits joins The Mufson Partnership

November 08, 2010 - Design / Build

Stan Judovits has joined The Mufson Partnership as a partner. With the appointment, Judovits becomes the first new partner since the corporate interior design firm was founded in 1994.

Judovits will be responsible for project management of corporate interiors projects, strategic planning, marketing, and business development of both new and existing clients. He will also be involved in mentoring the firm's junior staff.

"We felt the time was right to add a partner with a high level of skill and expertise," said Mufson principal Larry Mufson. "Stan's experience in managing corporate interior projects along with his talent for developing and maintaining client relationships will support our firm's ongoing business objectives."

"Our partners take an active role in all aspect of the planning, design and management process to ensure that all phases of a project are on budget and on schedule," said Mufson principal Ed Von Sover. "Stan has a depth of experience well-suited for this business model and expertise our clients will respect."

"Each partner brings diverse skills and experience to the firm," said Mr. Mufson. "Stan's expertise in project management and client services complements my design focus and Ed's talent for business development and operations."

Judovits has over 23 years of experience in heading project teams and managing corporate interiors projects from concept through completion while monitoring and maintaining schedules and budgets. He was most recently an executive vice president and project director at the New York office of Milo Kleinberg Design Associates (MKDA), which he joined in 1987. While there, he managed corporate interiors projects from programming and design development to construction management and move-in. Prior to that, he held a position at Florida-based design firm Pavlik Design Team.

"I am looking forward to contributing professionally to an organization in which I have an ownership position," said Judovits, who holds a Bachelor of Architecture degree from The University of Miami. "In addition, I look forward to assisting Mufson in maintaining its strong reputation and in achieving new levels of growth."
