

Corporate Profiles: Butterfly Energy

May 23, 2011 - Long Island

Butterfly Energy is certified to provide natural gas and electric in New York and New England, and has a wide spread network of account executives educated with important information about your options for energy cost savings for commercial and residential consumers.

Butterfly Energy is committed to offering cost effective sustainable solutions for natural gas and power. We are a new breed for energy companies offering transparency, improved service and lower costs to our customers. As a certified provider of natural gas and electric for NY and New England, our goal is to provide commercial and residential consumers better, greener options for gas and electric at a lower cost.

Our goal is very simple, it is to educate the consumer about all the options they have available to them, to reduce the costs of their energy and reduce the consumption of the energy they use.
