What do you now and what are you planning for the future? Founded in 1978, utiliVisor (formerly known as Utility Programs & Metering) offer comprehensive energy monitoring and submetering services, providing accurate, reliable solutions to boost efficiency and lower energy consumption. The utiliVisor system is a web-based, networked solution, built on open standards, that works in real time to collect and format data, monitor operations and equipment errors, and deliver oversight via web-based alerts and alarms. UtiliVisor services more than 450 facilities nationwide and oversees more than 47,000 service data points, more than any other service provider in the U.S.

Keys to success: Persistence and loyalty
