

Tectonic relocates office and expands credentials

January 13, 2012 - Design / Build

Tectonic Engineering & Surveying Consultants, P.C., has relocated its New Jersey office into a newer, larger facility and has expanded its environmental services.

The new office and New Jersey market will be led by Charles DiMarco, P.E., P.P., C.M.E. DiMarco, regional director, has over 40 years of experience as a professional engineer, planner and certified municipal engineer developing and directing diverse infrastructure projects for municipalities, public agencies and private concerns throughout New Jersey. He has a broad background in the oversight of all aspects of utility, transit, site and roadway projects including public participation and management of community concerns.

Tectonic will also now offer Licensed Site Remediation Professional (LSRP) services in New Jersey. David Morris, L.S.R.P., C.S.P., C.H.M.M. has joined the firm as director of New Jersey environmental services. He has over 22 years of experience performing environmental site assessments and managing hazardous materials programs.
