

Maass joins Parsons Brinckerhoff New York office as senior supervising engineer

February 12, 2013 - Design / Build

Charles Maass has been named a senior supervising construction engineer in the New York office of Parsons Brinckerhoff, a global infrastructure strategic consulting, planning, engineering and program/construction management organization.

In his new position, Maass serves as Parsons Brinckerhoff's resident engineer for the Second Ave. Subway project, responsible for overseeing construction work on the 96th St. Station and adjacent tunnels as well as restoration of the street above.

Maass comes to Parsons Brinckerhoff after a 20-year career with the NYS department of transportation. He most recently served in Region 10 (Long Island) as the engineer-in-charge on the \$130 million Roslyn Viaduct replacement project.

Maass received a B.S. in Civil Engineering from Tufts University and is a registered professional engineer in New York.
