

Turn Key Storage turn vacant cellars into income producing centers

May 07, 2012 - Front Section

At Turn Key Storage Solutions has developed a solution for clients to turn vacant, cellar space, in their building, into an income producing center.

With more than 75 years of combined self storage industry experience, the Turn Key Storage executive team is the one of most knowledgeable in the industry. The team's collective contribution has resulted in the creation of industry leading storage management systems centered on adding value to a commodity driven industry and producing efficient un-captured revenue generation (ERG) for landowners.

Turn Key Storage uses proprietary procedures to determine optimum area utilization, which will benefit the owners through increased revenue. They offer an attractive amenity for their clients' building and tenants. Their storage design team will provide a no cost solution to capture additional income to the landlord. Turn Key storage will manage and monitor the storage facility at no cost and will feature a call button to receive customer service at any time, and access their stored items while being monitored by Turn Key Storage. Turn Key Storage will maintain a secure, clean, self-storage environment for your tenants. Turn Key storage is committed to providing tenants with management and monitoring of individually enclosed storage cubicles.

Turn Key Storage strives on the principal of operational excellence, and an aggressive growth strategy. This ensures that tenants world wide are afforded a life with less clutter and the luxury of having their belongings just an elevator ride away. Their team is comprised of individuals who have obtained the highest reputation amongst the construction, management, design, and self-storage industries. Having established a strong working relationship prior to their dedicated positions within Turn Key Storage, you can be sure that the service you receive is un-matched.
