

Meet the LICN Members: Chuck Merritt and Andrew Saluk

August 13, 2012 - Long Island

Chuck Merritt is a LEED accredited professional and can assist clients with the process of "Going Green." Under the LEED program, buildings can be designed as Certified, Silver, Gold or Platinum depending on the number of credits earned during a LEED application. As a member of the Long Island Chapter of USGBC, we continue to be involved with such issues as water reduction and sustainable technologies.

Andrew Saluk, NEFCU's business loan officer, has more than 20 years of commercial banking experience specializing in business and commercial lending. At NEFCU, Saluk is able to draw upon this expertise to best structure loan requests for members. This approach allows for a higher percentage of loan approvals. Saluk will also be a panelist on the Finance Seminar at the HIA-LI Tradeshow on May 24.
