

P.W. Grosser Consulting named to top 20 firms in civil engineering by Zweig White

November 12, 2012 - Long Island

According to Zweig White, P.W. Grosser Consulting was named one of the top 20 firms in "CE News Best Civil Engineering Firms to Work For 2012."

Since inception in 1990, Dr. Grosser, PE established a corporate culture like no other for his employees and this industry ranking award acknowledges his efforts and foresight to know that the success of the company relies on the employees. The annual survey conducted by CE News magazine is quite unusual: each firm is rated by their own employees. Employees provide feedback on their work environment, training and mentoring programs, internal communication, culture, insurance and fringe benefits, and compensation and bonus practices. Other metrics for the survey include: total billings during the last five years, turnover rates, history of downsizing events.

Deanna Lantieri, director of human resources from PWGC was present to accept the award and states "We are honored to rank in the Top Twenty and pleased with the continued pride our employees have working at PWGC."

ZweigWhite is the nation's leader in enhancing business performance for architecture, engineering, and environmental consulting firms. The ZweigWhite team consists of experts in strategy, mergers and acquisitions, business evaluation, ownership transition, human resources management, finance, marketing, market research, project management, and project delivery methods who collectively produce a comprehensive suite of products and services, including advisory, consulting, newsletters, industry reports, executive training, business conferences, and more covering virtually every aspect of firm management.

PWGC is a multidisciplinary firm founded by Paul W. Grosser, PhD, PE in 1990 providing federal, state, municipal and private clients with quality environmental consulting and engineering services. The firm's main office is located in Bohemia, NY with branch offices in New York, NY; Syracuse, NY; and Seattle, WA. PWGC has 50+ diverse professionals including civil, chemical, mechanical and environmental engineers, hydrogeologists, geologists, environmental scientists and LEED accredited professionals.

PWGC has over 20 years of experience specializing in a wide range of services including energy conservation and sustainability; civil/site, water/wastewater engineering; hazardous/non-hazardous waste management; comprehensive environmental/regulatory compliance; redevelopment, site assessments & remediation; natural resource management; and Brownfield redevelopment consulting. PWGC provides these services to a multitude of clients ranging from developers, architects, and financial institutions, to municipalities and federal agencies. Some of our clients include the Suffolk County Departments of Public Works and Health Services, Town of Oyster Bay, Village of Lindenhurst, Incorporated Village of Freeport, North Fork Bank, Independence Community

Bank, Rechler Equity Partners, RXR Realty, Allstate Insurance, New York City Housing Authority, New York City Department of Design and Construction, Benjamin Development Company, and Brookhaven National Laboratory.
