

Cameron Engineering acquires Laszlo Bodak Engineer; To operate as Bodak-Cameron Engineering

December 11, 2012 - Design / Build

Cameron Engineering & Associates, LLP has acquired Laszlo Bodak Engineer, P.C., a mechanical - electrical engineering firm located in New York City. As an affiliate of Cameron Engineering, the new company will operate under the name of Bodak-Cameron Engineering.

"After almost 28 years of organic growth, it is exciting for us to expand the firm's breadth of focus and technical resources with our first acquisition in the city," said John Cameron, Jr., P.E., Cameron's founder and managing partner.

The Bodak firm which was founded in 1985, the same year as Cameron Engineering, has served both municipal and private clients both here and abroad. The firm's founder, Laszlo Bodak, P.E., is an experienced and distinguished professional engineer with over 40 years of engineering experience.

"With the addition of Bodak's staff and the New York City office, we will be able to expand our service to architects, building owners and other clients in the metropolitan area," said Joseph Amato, P.E., Cameron Engineering's senior partner.

Nicholas Kumbatovic, P.E., also a Cameron partner who will serve as the new company's president said, "I look forward to growing our city presence and in augmenting our mechanical - electrical engineering services."

Bodak, who will serve as the new company's executive vice president, affirmed his comfort with the business transition by stating, "After starting and growing a New York City - based engineering firm, I am very excited to join the Cameron Engineering family, a company who shares our professional values and has established an exemplary reputation upon which we can continue to grow."

Bodak-Cameron Engineering will operate from the former firm's business location in midtown at 45 West 36th St.
