

CA Rich completes brownfield cleanup

February 25, 2008 - Front Section

CA Rich Consultants has received the certificate of completion for a New York State Department of Environmental Conservation Brownfield clean-up site. The site is located at 421-433 East 13th St. and 420 East 14th St. The former environmentally compromised site consisted of 100-year old buildings with subsurface soil and groundwater contamination from historical land use. CA Rich coordinated the cleanup with the Ascend Group's redevelopment plan and NYSDEC's remediation requirements to speed the cleanup and compliance process and allow new residential construction.
