What do you do now and what are you planning for the future? I'm currently working to expand out company's presence in the Manhattan sales market. While I continue to work in that endeavor, we're taking steps to bring our luxury high-end properties to the rest of the world with expansions to other major cities.

Hobbies: Guitar, listening to music and playing sports

Favorite book: "The Curious Incident of the Dog in the Night-time" and "The Tipping Point"

Persons you admire most (outside of family): I admire hardworking families that drive this country. My parents and many like them came to this country with nothing, but did everything they could to provide their offspring with better opportunities.

Keys to success: Perseverance and dedication to meet your goals.

If you had to choose another vocation what would it be? I would choose to be an analyst or front office personnel for an NFL team.
