

Foglietta joins Parsons Brinckerhoff as senior engineering manager

July 15, 2013 - Design / Build

Joseph Foglietta has been named a senior engineering manager in the New York office of Parsons Brinckerhoff.

Foglietta comes to Parsons Brinckerhoff after a 35-year career with the New York State Dept. of Transportation (NYSDOT). He most recently served as acting director of engineering/chief engineer, providing overall management for the agency's 4,500 engineers, technicians and support staff in the delivery of a \$1.8 billion capital program. He was responsible for management of the NYSDOT's bridge inspection and management program, highway and bridge design offices, construction management office, and technical services office.

Foglietta has a B.S. in Civil Engineering from the University of Colorado. He is a member of the American Society of Civil Engineers and the New York State Association of Transportation Engineers.

Parsons Brinckerhoff is a leader in developing and operating infrastructure around the world, with 14,000 employees dedicated to meeting the needs of clients and communities in the Americas, Europe, Africa, the Middle East, Asia and Australia-Pacific regions. The firm offers skills and resources in strategic consulting, planning, engineering, program/construction management, and operations for transportation, power, mining, water/wastewater, and community development projects. Parsons Brinckerhoff is part of Balfour Beatty, an international infrastructure services business operating in professional services, construction services, support services and infrastructure investments (www.pbworld.com).
