

Lenore Janis, Professional Women in Construction

December 23, 2013 - Spotlights

What are your resolutions for 2014?

In 2014, I hope to continue to work with the Professional Women in Construction (PWC) board to develop more programs that will serve an even wider audience. Our W/MBE compliance committee will become more active and we will develop more mentorship opportunities through the existing program launched in 2012 and a new initiative that will bring students to PWC events. Our Continuing Ed program will offer courses serving different facets of the community starting with a program on Energy Efficiency in January.

And we will continue to work with PWC chapters across the nation - some new ones may be forming, watch for it!
