

Crystal Window "renewed" for next season of Flipping Boston; Continues as exclusive window supplier to the A&E show

January 13, 2014 - Design / Build

Crystal Window & Door Systems, the national manufacturer of quality window and door products, has been chosen by the producers of the A&E TV show Flipping Boston to continue as the exclusive window supplier for the coming third season this year. Crystal was Flipping Boston's exclusive supplier for the show's second season (2013) and in prior years has supplied individual projects for the first season of the show and its predecessor Flip This House.

"We are all thrilled that the Flipping Boston producers were so pleased with Crystal products that they have 'renewed' us for another season," said Steven Yu, Crystal's marketing manager. "Crystal's quality energy performance windows, tremendous value, broad product line, customer service and attention to detail are the reasons we continue to be the choice over other national brands as the show's exclusive window supplier."

Properties highlighted on Flipping Boston are distressed and in need of renovation, and the show's general contractors effectively transform these eyesores into profit-making beauties. Crystal Windows are an important component of this transformation, maximizing value to meet the projects' energy efficient specifications, constrained budgets and tight construction deadlines. The coming season's properties that need improvement include single, two and three-family wood frame and brick homes.

Crystal's flagship vinyl Series 200, vinyl Series 500 and aluminum Series 2600 product lines are the star windows used to improve this season's properties. The Flipping Boston windows are all ordered with Crystal energy performance low-E glass and argon gas. Filming for all the episodes of the new season has been completed, and the season premiere air date is planned for early spring.

Crystal Window & Door Systems is one of the top 40 manufacturers in North America of replacement and new construction vinyl and aluminum window and door products and high-end fenestration systems. Crystal offers a full product line, rapid order-to-delivery times, quality workmanship, innovative product features and outstanding value. Crystal operates branches, subsidiaries and affiliates in Pennsylvania, Ohio, Missouri, New Jersey, Illinois, California and Massachusetts. Crystal is dedicated to practicing 'green' environmental initiatives in all aspects of corporate activities.
