

Hunt Construction contracted to update 1175 Walt Whitman Road

July 14, 2014 - Long Island

Hunt Construction has been contracted to update the exterior of the building at 1175 Walt Whitman Rd., by EGC Group. Hunt will act as general contractor and will be working in conjunction with EGC's space planning and design group, EJS Corporate Interiors, Inc.

The building at 1175 Walt Whitman Rd. has a combination of red brick, pre-cast concrete, stucco and an architectural metal mansard. "The plan is to introduce a different color scheme on the mansard and painted surfaces while making subtle changes to doors and trim, and work within a set budget. The building is in a great location on Walt Whitman Rd. but needs a fresh look," said Robert Ciurleo of Hunt. "Since their business is marketing, EGC thought it was time for the outside to match the interior which exudes a look of creativity."

The EGC Group, is an advertising agency dedicated to motivating and driving consumers to take action. Services offered are social media marketing, search engine marketing and optimization, public relations, web design and development, digital, email and mobile marketing, branding and creative development.
