

## **TAYLOR awarded const. contract for Fresenius Medical Care in Greece; To be developed by Choice One Development**

December 09, 2014 - Upstate New York

TAYLOR, one of the leading regional general contractors, has been awarded the contract for construction of the new Fresenius Medical Care Outpatient Dialysis Facility located at 1570 Long Pond Rd. The new 9,300 s/f state-of-the-art building is being developed by Choice One Development, with architectural design provided by award winning architecture firm Christopher Kidd Associates. Construction work is underway, with a project completion date slated for March, 2015. The total project cost is approximately \$2 million.

"TAYLOR is pleased to establish a relationship with both Choice One Development and Fresenius Medical Care as FMC continues to maintain themselves as the world leader in quality dialysis services and products," said TAYLOR CEO, Jim Taylor. "As a leader in commercial general contracting, TAYLOR is committed to deliver superior buildings in the most efficient ways possible, and this project will be no different."

Fresenius Medical Care is one of the World's leading providers of dialysis services, renal pharmaceuticals, and dialysis equipment. Through more than 2,150 dialysis facilities in North America and vascular access centers, labs, pharmacy, inpatient physicians, urgent care centers, affiliated hospitals and nephrology practices, they provide comprehensive and coordinated health care to hundreds of thousands of chronically ill patients.

TAYLOR is a second-generation general contractor with over 30 years of experience in the design and construction of commercial, industrial, multi-family, and institutional buildings. Having successfully completed literally hundreds of projects, TAYLOR has the resources to deliver superior execution on all phases of every project from the ground up.
