What was your greatest professional accomplishment in 2012?

In 2012, Altus Metal & Marble became Altus Metal, Marble & Wood. The expansion of our wood restoration division has proved a great asset to the business. We are now able to perform comprehensive metal, marble and wood services for the most complex and challenging projects for commercial, residential and landmark properties.

What are your predictions for commercial real estate in 2013?

I think we'll see definite improvement.

What are some of your resolutions for 2013?

To raise the visibility of Altus - we've done some wonderful work over the years, work I am truly proud of for such landmark properties as Grand Central Terminal; Columbia University; The Empire State Building; The New York City Public Library, and many more. It's time we get the word out more about what we have done and what we are capable of doing.
