

CA RICH hires Sullivan as senior geologist

August 10, 2015 - Long Island

Carla Sullivan has been hired as a senior geologist as CA RICH. She has 18 years of experience in the due diligence and environmental risk management with particular emphasis on Long Island and New York City.

As a specialist in the environmental assessment of properties, subsequent sampling and remedial corrective action of groundwater, soil, soil vapor, and underground storage tank management, she has worked with federal, state and local government agencies as well as private industry. Sullivan has managed programs including USEPA Class 5 Underground Injection Control; remedial investigations for NYS Class 2 Superfund Sites; Phase II investigations; voluntary cleanups; combustible fuel storage tank removals and remediation; groundwater quality investigations and remedial corrective action.

Sullivan's primary focus is client liaison and services in due diligence for lending institutions, real estate attorneys and developers.

She is a member of the Long Island chapter of The Risk Management Association and the Long Island Association of Professional Geologists.
