What was your most notable project, deal, transaction or professional achievement in 2017?

Our most notable TygaTrax deal this year was with JP Morgan Chase, because in this instance, we not only tracked every tagged asset 24/7 during their move, we managed it remotely from New York City, providing a small degree of tech support to our channel partner located in Columbus.

What was the best decision you made in 2017 and why?

My best decision this year was to green-light the further development of our workplace asset tracking software ahead of the previously determined timeline.

Who or what contributed to your success in 2017 and why?

Perserverence!

What trends will impact your business in 2018?

IoT, blockchain, M2M communication chips and modules.
