

Tempco Glass honored by Glass Magazine

May 15, 2018 - Design / Build

Queens, NY Tempco Glass Fabrication, a leading regional New York area glass processing firm, continues to receive industry recognition for its growth over the past five years. National trade publication Glass Magazine has included Tempco Glass Fabrication on its 2018 List of Top Glass Fabricators in North America in its March issue. The list, published each year, is based on annual sales volume for the prior year, with firms placed in one of seven revenue categories.

Glass Magazine's Top Glass Fabricators List this year includes industry leading firms such as Viracon, GGI, J.E. Berkowitz, and Glasswerks LA.

"We are very pleased that our increasing presence in the New York area construction market has led to Tempco being included on this notable list of top national fabricators," said Johnson Chen, general manager for Tempco Glass. "The company and our dedicated staff have worked very hard to provide quality products, swift turnaround on orders, and enhanced services for our customers, all resulting in our impressive growth in sales."

"We are looking forward to continued expansion and growth in the New York tri-state area and beyond," said Chen. "The demand for quality tempered, insulated, and other glass processing services and products remains high, and we are well-poised to meet our customers' needs, now and in the future."
