

Niagara Univ. secures Home Depot grant to upgrade two residences

October 02, 2018 - Upstate New York

Niagara Falls, NY According to Niagara University, two properties in the South End are receiving a makeover thanks to a grant through Home Depot.

The award provides funding for materials. Additionally, more than 20 volunteers from Home Depot will be on-site to assist with the housing renovations, as will partners from the South End Housing Initiative, including representatives from Niagara University's Levesque Institute for Civic Engagement.

The properties are located at 539 4th St. and 516 7th St.

"This type of partnership is an excellent example of how Home Depot gives back to veterans who selflessly served our country," said Patti Wrobel, executive director of the Levesque Institute. "Home Depot has been an excellent partner in promoting revitalization efforts in the South End of Niagara Falls."

The two properties are homes of two U.S. Armed Services Veterans and their families.

The South End Housing Initiative is a collaboration of 25 local entities committed to assisting the neighborhood's revitalization through blight removal, minor repairs to homes, and landscaping and energy upgrades. Its goal is to encourage new homeowners to invest in the area by improving curb appeal.

Home Depot works with local schools, churches and nonprofit entities to help build better communities. Its foundation offers grant awards to 501c-designated organizations and tax-exempt public service agencies in the U.S. that are using the power of volunteers to improve the community.
