

2019 Year in Review: Adam Rudman, Vcheck Global

December 31, 2019 - Spotlights

Name: Adam Rudman

Company: Vcheck Global

What was your greatest professional accomplishment in 2019?

Since becoming CEO of Vcheck Global, I have led Vcheck's sales growth and expanded the company's offerings as a leading provider of deep-dive due diligence background checks for commercial real estate companies, law firms, banks and investment groups. The company has increased revenue by over 250% and secured some of the largest Fortune 500 companies as clients. I have helped the company to continue to grow as cited on the INC 5000 Fastest Growing Companies list for the last two years. In 2019 we invested heavily in machine learning and AI to provide more insightful reports in a shortened turnaround time. In the real estate space Vcheck Global provides an efficient deeper dive into background investigations for clients that save companies millions of dollars in potential losses and help limit their exposure to litigation and unnecessary risk. The company's services include identity verification, asset searches, judgments and liens, bankruptcies, criminal records, credit reports, social media presence and more. Today Vcheck Global services over 1,000 clients across the globe that include many commercial real estate lenders and non banks that use the company's sophisticated set of services aimed at vetting investments and borrowers. Vcheck Globals' screening services are also in demand by real estate professionals who vet prospective hires, clients, strategic partners and suppliers.
