

47,000 s/f signed at One World Trade Ctr.

February 18, 2020 - Front Section

New York, NY According to The Durst Organization and The Port Authority of New York and New Jersey, DADA Holdings LLC has signed a five-year lease for 4,786 s/f on the 71st floor of One World Trade Center. Princeton Longevity Center signed a 10-year lease for 11,075 s/f on the 71st floor. This will be both DADA and Princeton Longevity's first offices in New York City. Ichnos Science Inc., moving its offices to New York City from Paramus, New Jersey signed a seven-year, five-month lease for 10,847 s/f on the 76th floor. Pison Stream Solutions signed a three-year lease for 10,804 s/f on the 49th floor of OWTC, making the building their global headquarters.

Also signed at the One World Trade Center were two expansion deals. Symphony Communications Services has signed a one-year lease for 3,510 s/f on the 45th floor, bringing their total square footage on the floor to 12,100 s/f. Additionally, Augustus Intelligence signed a five-year lease for 6,475 s/f on the 77th floor of OWTC, doubling their footprint with a move from the 45th floor.

"We are extremely pleased with the leasing activity at One World Trade Center," said Jonathan (Jody) Durst, president of The Durst Organization. "We are beginning the year by welcoming our newest tenants DADA Holdings, Ichnos, Princeton Longevity and Pison and celebrating the success of Symphony and Augustus with their office expansions at One WTC."

Princeton Longevity Center was represented by Steven Rotter, Blake Goodman and Justin Haber of JLL. Ichnos Sciences was represented by Cushman & Wakefield's Drew Braver and Mark Zaziski. Michael Thomas and Aidan Campbell of Colliers represented Pison. Symphony Communications Services was represented by Christopher Foerch of Savills. And Augustus was represented by Carol Engel of CS Engel and Associates. The landlord was represented by Senior Managing Director Eric Engelhardt and Managing Director Karen Kuznick of The Durst Organization and the Newmark Knight Frank team of David Falk, Jason Greenstein, Peter Shimkin, Hal Stein and Travis Wilson.

Augustus Intelligence builds artificial intelligence products and secure infrastructure services to help enterprise clients reinvent themselves.

Pison Stream Solutions is a global leader in the research and development of chemical coatings platforms for niche markets. They implement their systems across defense, aerospace, automotive, antimicrobial, renewable energy applications, and additive platforms.
