What was the most challenging part of working during the pandemic?

In accordance with the Governors' Executive Orders for New York State and New Jersey, EPIC Security Corp. was designated as an essential service in New York and New Jersey. EPIC has remained fully operational 24/7 during the pandemic. Along with the pandemic came extensive protests, demonstrations and organized violence against the police and commercial establishments. EPIC responded to all our clients that faced heightened security concerns with additional security personnel and equipment to help where and when needed. We are very proud of our security officers that rose to the occasion during the challenges presented by the pandemic and the political unrest of 2020.
