

## **NOWAB hires Maser for new hotel facility**

September 22, 2008 - Upstate New York

Maser Consulting, P.A. has been retained by NOWAB Hotels Corp. for a new 120-room flag hotel facility.

Maser is providing site engineering, landscaping and lighting for the planned hotel. Maser will do the site and subdivision planning and permitting work.

Project architects A.J. Coppola Associates will be providing design services for the facility. Andrew Fetherson, P.E., project manager for Maser, said, "We are very excited to be selected for this latest project for NOWAB. The new hotel is in such a great location, very close to the emerging Stewart Airport hub, so it will be beneficial to the economics of the local community and the region."
