

SWBR honored with two awards from CSI Rochester chapter

October 19, 2021 - Design / Build

Rochester, NY SWBR has been recognized with two awards from Rochester's chapter of the Construction Specifications Institute (CSI). The Golisano Autism Center was recognized with The Rochester Award, and Victor Central School District's 2017 Capital Improvement Project received the Flower City Award.

The awards are given for exceptional teamwork between owner, designer and constructor realized through the CSI's principles of how clear, well-prepared construction documents can positively influence the process, quality and successful outcome of a project.

Golisano Autism Center

Completed in 2019, the Golisano Autism Center combines support services from multiple agencies, including AutismUp, CP Rochester and AI Sigl Community Center, into one place for patients diagnosed with autism spectrum disorders. It's a one-of-a-kind collaboration of health and human service agencies providing speech and occupational therapy, preschool and school-age classrooms, vocational training and life skills development.

Victor Central School

Victor Central School District's 2017 Capital Improvement Project included significant district-wide energy performance improvements and many general improvements to the campus, including additions and renovations to the Early Childhood School, Primary School and Junior/Senior High School, and featured a new daylit gymnasium that was carefully incorporated into the existing intermediate school.

SWBR accepted the awards Sept. 18 at the annual CSI gala at ARTISANworks.
