

Mojo Stumer Associates commissioned to design Great Neck Village Hall

November 02, 2021 - Long Island

Great Neck, NY Throughout its 41-year history, Mojo Stumer Associates has been widely recognized and awarded for their work both nationally and internationally—though it’s the work they do in their immediate community they’re most proud of.

Across Long Island, and especially throughout the Great Neck Peninsula, Mojo Stumer Associates’ team has completed countless successful projects in a wide range of typologies, each as exciting and creative as the last. From their first nationally award-winning project, Alert Fire House, to Young Israel, Marie Blachere, and Everfresh Market, each project they’ve completed in the area has broadened and deepened their understanding of this community and the people who make it up.

Continuing this great tradition, Mojo Stumer Associates has been commissioned to design the new ‘Great Neck Village Hall,’ having been awarded the project after a competitive RFP issued by the Village of Great Neck.

The new Village Hall will be a centralized home to all Village government functions and community involvement, with a creative and modern approach to planning that gives the building an open and accessible layout connecting directly to all sides of its neighborhood surroundings.
