

EP Engineering promotes Burgess to Senior Partner

June 28, 2022 - Front Section

Chris Burgess

New York, NY EP Engineering, a leading full-service mechanical, electrical and plumbing engineering firm, is promoting Chris Burgess to senior partner. Burgess has gained extensive experience in mechanical engineering throughout his career and his work at EP Engineering has contributed greatly to the completion of numerous projects throughout New York and New Jersey.

Burgess, a graduate of the Stevens Institute of Technology, joined EP Engineering in 2008 as a project mechanical engineer and quickly took advantage of opportunities to exercise his creativity

and problem-solving abilities. He has led and designed several projects, ranging from passive house, high-rise multifamily-food service, fitness centers, education and commercial office buildings. Throughout his career as EP Engineering, he has also held the position of associate principal and partner, and in his role as senior partner, he will continue to cultivate positive relationships with clients and team members through his meticulous work ethic and dedication to responsiveness.

“Chris Burgess shares a deeply engrained dedication to the mastery of his craft and provides an example that all of our team members can aspire to emulate,” said Evan Parganos, founding partner, EP Engineering. “Throughout his tenure here at EP Engineering, he has demonstrated on numerous occasions that he is willing and able to take his extensive MEP knowledge and use it to identify innovative solutions across projects that span many asset types.”
