What recent project, transaction or accomplishment are you most proud of?

James B. Beam Distilling Company's campus renovation in Clermont, KY. Our team elevated the consumer experience, touching many buildings and aspects of the consumer journey. My favorite was creating a VIP experience at the Fred B. Noe Craft Distillery, where guests could learn from the eighth-generation master distiller Freddie Noe.

Tell us about a mentor or role model that has influenced your career choices?

My first job after college was at a small restaurant design firm. On day one, the company's owner stated, "you are going to work really hard and have a lot of fun." I was sold and learned a tremendous amount due to the owner's inclusive approach to design and mentoring.
