What was your greatest professional accomplishment or most notable project, deal, or transaction in 2022? Working and collaborating with clients to help them secure the cash flow needed to expand and grow their business by identifying ways for them to save on taxes.

How has your career path changed in 2022? Supporting my talented colleagues who are just getting started in their accounting careers is something that's very important to me. I invested more time in helping them develop the skillsets to be successful CPAs for the future.

What person, project, transaction or market trend had the greatest impact on your industry this year? Our clients that own construction and real estate businesses faced a variety of challenges throughout the year, including supply cost increases, labor shortages and more. As a result, they had to make adjustments to their strategy and operations.
