

2023 Ones to Watch Rising Stars: Ingrid Stack, Stack Electric of New York, Inc.

May 16, 2023 - Spotlights

Ingrid Stack
Vice President, Master Electrician

Stack Electric of New York Inc.

Number of years at firm: 5

What recent project, transaction or accomplishment are you most proud of? I have spent the past year as a trusted master electrician leading major commercial project build outs including fortune 500 HQ's throughout NYC. As founder of Stack Electric I'm proud to be building our WBE and LGBTQ+ company's foundation through the NYPA and NYC SBS surety bonding programs. After graduating from these programs we obtained our surety bond letter to increase our capacity. We are excited to have the opportunity to position Stack Electric of New York to the forefront of the NY real estate market needs and be relied upon to bid and masterfully deliver on substantial M/WBE PLA projects in New York City.

What makes this nominee a RISING STAR?

"Ingrid embodies the drive of a woman who chooses a non traditional work path and becomes a master of their trade. Ingrid approaches her Master Electrician Career with tremendous technical command of knowledge while delivering a focused client accessible high touch service and leadership tantamount to few in the field." - K.A. Stacie Alexiou, CEO, WATT + FLUX | Reverse Engineer Method | High Performance Coaching Division

One thing on my bucket list: Travel to Japan.

When I am not working, I am: A mom, wife and rocking out on my guitars.
