## IREON

Steve Kirschner of IREON networking always suggests and initiates a one-on-one mentoring program, fostering stronger professional relationships and knowledge sharing within our organization. This initiative has significantly improved communication, collaboration, and skill development, resulting in a more cohesive and effective team.

What recent project, transaction, or accomplishment are you most proud of?

I am most proud of the YouTube Channel that we have created for IREON. We are currently in the early stages of establishing our channel, but I have BIG PLANS for IREON and its members with this platform. Even though it is in its infancy, I know the IREON YOUTUBE channel will revolutionize IREON memberships.
