

## **2023 Commercial Real Estate Visionaries: Derek Peterson of Soter Technologies**

November 14, 2023 - Spotlights

Derek Peterson  
Founder & CEO

## Soter Technologies

Derek Peterson's visionary leadership at Soter Technologies is evident in his creation of FlySense®, the world's first vape and bully detection technology. His innovation addresses crucial safety concerns, making educational and corporate environments safer and healthier, exemplifying his commitment to advancing technology for a more secure world.

What recent project, transaction, or accomplishment are you most proud of?

I take immense pride in the successful launch of our next-generation Air Quality sensor, a groundbreaking innovation that will play a pivotal role in ensuring the safety and well-being of individuals and communities. This state-of-the-art sensor not only represents technological advancement but also underscores our unwavering commitment to enhancing the quality of life for people worldwide by proactively addressing air quality concerns.
