

P.W. Grosser Consulting hires nine

December 12, 2023 - Long Island

Bohemia, NY Julia Greco, staff engineer, Amy Marigliano, GIS analyst, Kenny McNeill, GIS analyst, Rebecca Reagin, field hydrogeologist, Harry de Haas, staff engineer, Christian Granelli, senior environmental planner, El Jaworski, staff engineer, Chayse Nasiatka, field hydrogeologist, and Corey Reilly, senior engineer, have joined P.W. Grosser Consulting (PWGC). Their additions to PWGC will strengthen the engineering, environmental, and environmental compliance divisions.

Greco's responsibilities will include water and wastewater treatment projects, with responsibilities including drafting design plans, performing necessary calculations to size treatment systems, preparation of construction specifications, and assisting with engineering report writing. She will also assist with various engineering projects including engineering inspections, environmental remedial systems, and geothermal feasibility studies.

Marigliano's responsibilities are to assist in the development of project specific data management, analysis, and reporting needs, provide maps and other datasets and perform appropriate analysis techniques to support projects. In addition, she will develop new systems and explore new technologies to enhance efficiency and capabilities.

McNeill's responsibilities are to assist in the development of project specific data management, analysis, and reporting needs, provide maps and other datasets and perform appropriate analysis techniques to support projects. In addition, he will develop new systems and explore new technologies to enhance efficiency and capabilities.

Reagin's focus and responsibilities as a Field Hydrogeologist include but are not limited to conducting oversight of environmental cleanup projects including brownfield and e-designation sites, leading field efforts for Phase II ESAs and Remedial Investigations, and using her background in geology to assist the company with subsurface investigations and soil characterizations.

de Haas's responsibilities will include construction oversight in the role of a resident engineer on PWGC's sitework and water treatment projects, as well as office engineering on drainage, civil/site and municipal projects.

Granelli provides environmental and land use consulting services for projects subject to local, state and/or federal environmental and land use regulations. He provides environmental consulting services across major market sectors including, but not limited to, real estate, healthcare, institutional, energy, and transportation. Granelli has been an assistant preparer of EAFs and

Supplemental Analyses, DEISs, FEISs, Determinations, Notices, and Findings Statements.

El Jaworski's focus will be construction oversight and inspection work on public-works projects in New York City, and Suffolk and Nassau County. Their responsibilities will include construction oversight in the role of a resident engineer on PWGC's sitework and water treatment projects, as well as office engineering on drainage, civil/site and municipal projects.

Nasiatka's responsibilities will include, but are not limited to, conducting oversight of environmental cleanup projects including brownfield and e-designation sites, leading field efforts for Phase II ESAs and Remedial Investigations and using his background to assist the company with subsurface investigations and soil characterizations.

Reilly is an experienced civil engineer with nearly 10 years of extensive knowledge in the land development industry in the tri-state region. He is proficient in the use of AutoCAD/Civil 3D as a design tool for site analysis, design & grading, proficient in planning, reporting, coordination and organization. He has provided project oversight not only in the field but also for technical documents, reports, plans, and designs.

"We are very excited to have these nine professionals join our roster," said PWGC president/CEO Paul Boyce, PE, PG. "We look forward to their contributions to our growth going forward."
