What do you like best about being a woman in the AEC industry? I originally worked for HYLAN from 1994 to 2004 and recently returned in 2022. I like best the camaraderie within our company and the telecommunication industry. I have made many lifetime friends who are like family.

What is one of the most exciting developments or innovations impacting the AEC industry right now? I think one of the most exciting developments in our industry is installing EV Charging Stations across the US to lower emissions for a more sustainable future.

What is your favorite building in New York? My favorite building in New York is St. Patrick’s Cathedral. The first time I went to NYC and walked up to the Cathedral, I was left breathless. The details of the architecture on the outside of the building to the inside stained-glass windows were overwhelmingly impressive.
