What recent project, accomplishment or award are you most proud of? I am proud to take on complex cases that others feared and turn them in favor of our clients. From contract negotiations (\$3 million - \$100 million) to delay, damage, and change order claims to project close-out, we have a successful track record of helping our clients finish projects and get paid.

What do you like best about being a woman in the AEC industry? I strive to be a role model to younger women, including my three daughters. I am an active member and mentor in Professional Women in Construction and am proud to support young women with their career paths in the construction industry.
