Senior Associate

MdeAS

“Over the past three years, Cynthia spearheaded the construction of PENN 2, a 1.8 million s/f mixed-use redevelopment on an extremely challenging site in NYC. An exceptional leader on site/in studio, she consistently demonstrates the importance of quality, thoughtful communication, and attention to detail, key attributes to have in construction administration.” - Mike Zaborski, Principal at MdeAS.

What do you like best about being a woman in the AEC industry? Making the path better for the women who come after me.

What is your favorite building in New York? My favorite building in NYC is the abandoned City Hall Station at the end of the 6 train line - the vaulted ceilings and skylights are a hidden treat that you don't expect.
