

JRM Construction Management welcomes Phillips as vice president of aviation

June 25, 2024 - Design / Build

Manhattan, NY JRM Construction Management has welcomed Mark Phillips as the newly appointed vice president of aviation. Phillips steps into this role with a background of 18 years in aviation construction, where he has spearheaded a wide range of projects across key airports in the U.S. such as JFK, LGA, EWR, BOS, and ISP. His expertise spans terminal construction, premium service programs, hangar/technical operations, and airside/landside developments, as well as food, beverage, and retail operations within these environments.

Phillips' position signals a step forward for JRM Construction Management as it reinforces its leadership in the competitive aviation construction industry.

Phillips has been instrumental in leading major redevelopment initiatives, notably within the New York and New Jersey airport systems. His work includes the landmark American Airlines redevelopment program at JFK as well as retail and terminal programs at the recently completed LGA redevelopment. These projects highlight Phillips' ability to manage complex operations, ensuring they meet high standards of quality, sustainability, and cost-effectiveness.

"I am excited to embark on this new journey with JRM Construction Management and contribute to its distinguished track record in the aviation sector," said Phillips. "Together, we will continue to set new standards for excellence and innovation, delivering projects that make a lasting impact."

As the vice president of aviation at JRM, Phillips is set to leverage his industry knowledge and strategic insight to further enhance the company's capabilities in aviation construction. His vision for the division aligns with JRM's commitment to delivering outstanding results while pushing the boundaries of innovation and excellence in the field.
