

BOND Civil & Utility Const. promotes Foppiano to senior V.P. of NY and NJ

February 25, 2025 - Design / Build

Dan Foppiano

Manhattan, NY BOND Civil & Utility Construction has promoted Dan Foppiano to senior vice president of New York and New Jersey. Foppiano's promotion follows over a decade of success at BOND Civil & Utility, most recently serving as vice president of the New York operations.

"Dan has been a driving force behind the growth and success of our New York business portfolio over the past several years," said Kane Cuddy, president of BOND Civil & Utility Construction. "His leadership, ability to foster meaningful relationships, and unwavering commitment to delivering results have been invaluable to our team. Dan's passion for his work and dedication to his team make him the perfect choice to lead our continued expansion in the New York and New Jersey regions. We're excited to see the impact he'll make as he guides BOND Civil & Utility to even greater achievements."

In his new role, Foppiano will focus on expanding BOND Civil & Utility's geographical reach and market sectors while continuing to elevate the company's growth and profitability across the industry. He will also be responsible for mentoring the next generation of leaders within the organization and building robust relationships with clients, employees, and vendors.

"I am honored to step into this new role and take on greater responsibility in shaping how BOND Civil & Utility is positioned for the future," said Foppiano. "We've dedicated significant time, effort, and planning to get to where we are today, and I'm excited to keep the momentum going. Over the last decade, we've built a strong foundation, and I'm eager to leverage our talented team and strategic investments to achieve even greater success in the years ahead."

Foppiano's promotion comes at a pivotal moment as the company projects significant growth in 2025. Under his leadership, the company is poised to expand its reach beyond the tri-state area while continuing to excel in complex civil and utility projects. Notable ongoing efforts include a major wastewater project for the New York City Department of Environmental Protection and the Empire Wind project.

With over 20 years of industry experience, Foppiano has built his career in the New York City region, focusing on infrastructure projects throughout the five boroughs. Before joining BOND, he worked at Turner Construction as an assistant superintendent. Foppiano earned his undergraduate degree from Siena College and holds a master's degree from Columbia University.
