

LEED V3: evening program and panel discussion June 24

June 19, 2009 - Long Island

A can't miss evening event to learn the basics and ask questions:

- * LEED 2009 - Basic Overview and Advancements to the Green Building Rating System
- * Differences between version 2.0 and 3.0
- * LEED Online - Faster, Smarter & Better User Experience
- * LEED AP Certification Models - GBCI & Certification Bodies

This interactive panel discussion event will identify the relationships between professional accreditation, building certification and LEED. We will evaluate the changes to the LEED AP professional accreditation and exam and the changes to the LEED rating system for building certification. We'll explore and define the differences between the LEED AP specializations and review what changes will occur if you are already accredited and identify the schedule for the new series of exams.

Panelists

Jenny Lynn Georgiades - LEED AP, director of A & D Support Services for Waldner's Business Environments

Paul Meyer LEED AP, senior engineer of Horizon Engineering Associates - Building Commissioning & IAQ

Frank Piccirillo - senior project manager of Axis Construction Corp General Contracting & CM

Eric Schatz - LEED AP, senior consultant of Greyhawk Construction Managers & Consultants

Moderated by Richard Neuman, Partner with Relocation Management Solutions
