

BLT Restaurants named restaurant operator for W New York - Downtown, also The Residences

March 05, 2010 - Shopping Centers

According to BLT Restaurants, they have been selected as the official restaurant operator for W New York - Downtown and The Residences at W New York - Downtown located at 123 Washington St. For this new project, chef and restaurateur Laurent Tourondel has created BLT Bar & Grill, his interpretation of a modern tavern, as the restaurant for the property.

The new W New York - Downtown is one of the first hotel properties to usher in the rebirth of the Ground Zero neighborhood. The two-floor BLT Bar & Grill will help reclaim the downtown dining scene, giving local residents and travelers alike another reason to stay in the area. The restaurant will also cater to resident owners for "in-residence" dining and private events. The expertly-executed yet casual menu will feature Tourondel's modern versions of classic American bar food, hand-crafted cocktails, beer and wine in a comfortable, modern environment. BLT Bar & Grill will feature affordable selections ideal for everyday dining without departing from signature BLT style and service.

"I designed BLT Bar & Grill as a place to be enjoyed for drinks and a light bite, or a more substantial meal with friends," says Tourondel. "With so many young residents gravitating toward the renewed business growth in Financial District, we look forward to BLT Bar & Grill becoming a stylish and satisfying option for the downtown neighborhood."

The street level will feature an extensive menu of elevated bar snacks executed in plain view by chefs at the large freestanding zinc-topped bar. In addition to the 28 coveted seats at the bar, this bustling ground level will accommodate an additional 50 guests indoors and 90 on the outdoor patio, which will open in the warmer months.

The second floor dining room will feature a larger menu of snacks and starters, sandwiches and burgers, items from the grill and rotisserie, daily specials, and the signature sides and desserts that have made the BLT experience an international sensation. The second floor will also feature a private dining room for 24, the perfect place for casual yet festive gatherings any night of the week.

Much like the menu, the bi-level space incorporates traditional materials used in a modern way. Designed by CCS Architecture, both floors feature high ceilings with custom-designed wood beam chandeliers draped with Edison bulbs. The sculptural fixtures run the full length of the rooms, unifying the space. A nod to the chef's French background, the bar tops and massive door between the hotel and BLT Bar & Grill are polished zinc. Ebonized wood floors and ceilings, dark and distressed wood accents, and antique mirrors in modern frames hanging above create a warm, tavern-like atmosphere. Rectangular slate columns on both levels feature playful chalk designs. Booths and banquettes are outfitted in dark red and brown leathers, and the restaurant's neon signage references classic American pub décor.

st, lunch and dinner daily with the bar menu available throughout the day. BLT Restaurants will also

manage the food provisions for banqueting and catering as well as in-room dining for the property. For more information, visit www.bltrestaurants.com.
